ARPITA TANDON

DATA ANALYST | PYTHON DEVELOPER | MCA (Data Science and AI)

Rishikesh, Uttarakhand | +91 7017272204 | Arpita.tandon.ds@gmail.com
GitHub: github.com/arpitatandon-ds | LinkedIn: linkedin.com/in/arpita-tandon31b3b7267

PROFESSIONAL SUMMARY

MCA graduate in Data Science with hands-on experience in Python development, data analysis, and backend engineering. Skilled in Python, SQL, Pandas, NumPy, Power BI, data visualization, and machine learning, with experience supporting REST API development and multi-tenant SaaS systems using FastAPI and PostgreSQL. Interested in Data Analyst and Python Developer roles focused on data cleaning, exploratory data analysis (EDA), reporting, and data-driven problem solving.

TECHNICAL SKILLS

Programming & Querying: Python, SQL, C

Data Analysis: Pandas, NumPy, Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization

BI & Machine Learning: Power BI, Dashboarding, KPI Reporting, Scikit-learn, Classification, Predictive Modeling

Backend & Databases: FastAPI, PostgreSQL, REST APIs, JWT Authentication, Role-Based Access Control (RBAC)

Tools & Web: Excel, Git, GitHub, Docker, Streamlit, AWS, HTML, CSS, JavaScript, React, Tailwind CSS

PROJECTS

Diabetes Prediction System | *Python | Scikit-learn | Streamlit*
Built a machine learning classification workflow with data cleaning and feature engineering to predict diabetes risk from input health parameters. Developed an interactive Streamlit interface to present model predictions.

Flood Risk Prediction System | *Python | Machine Learning | Data Analysis*
Developed a predictive analytics project focused on flood-risk estimation from input features. Applied a machine-learning workflow to support risk prediction and make results easier to interpret.

Personal Finance Tracker | *Python | Data Handling | Data Visualization*
Created a project for organizing personal financial transactions and tracking expenses, budgets, and savings. Focused on presenting spending information in a clear and useful format.

Custom Meal Design | *Python | Data Handling | Personalization*
Worked on a meal-planning project intended to organize meal preferences and provide customized meal options. Project-specific implementation details should be confirmed against the current repository before final submission.

Shopping Recommendation System | *HTML | CSS | JavaScript | PHP*
Developed a content-based product recommendation system using similarity-based filtering to recommend products based on their features.

WORK EXPERIENCE

Backend Developer Intern
Meta Scifor Technologies | Remote | Jan 2026 – May 2026
- Develop backend services for a multi-tenant Gym B2B2C SaaS platform using FastAPI and PostgreSQL, with gym_id-based tenant isolation.
- Implement JWT authentication and role-based access control (RBAC) for secure access across user roles.
- Contribute to REST APIs for workout and personal-training sessions, diet and progress tracking, and real-time chat using WebSockets.
- Work with Docker-based development environments and support payment and background-processing integrations.

Python Developer Trainee
Meta Scifor Technologies | Remote | Jun 2025 – Sep 2025
- Practiced Python fundamentals, object-oriented programming (OOP), file handling, and exception handling.
- Performed data preprocessing and exploratory data analysis using Pandas and NumPy.
- Built and evaluated machine-learning models for classification and prediction tasks.

EDUCATION

MCA, Data Science — Dev Bhoomi Uttarakhand University, Dehradun | 2024–2026

BCA — Omkarananda Institute of Management and Technology, Rishikesh | 2021–2024

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Certified: Power BI Data Analyst Associate | Apr 2026 – Apr 2027
- AWS Certified Cloud Practitioner | Oct 2025 – Oct 2028
- Participant, X Technica Hackathon (IEEE Student Chapter, DBUU) and Padmavyuh Hackathon 3.0 (DBUU).
- Student Volunteer, International Symposium on Recent Trends in Emerging Technologies, DBUU.
